Abstract of MX 9604516 (A)

A cladding board (10) for fixing in partial overlapping relationship with a like board (10). The board (10) includes a longitudinally extending first face (11) which, in use, partially overlaps with the opposing face of a like board (10) and a retaining formation (12) in the first face (11) adapted to captively retain an aligning spline (13) having a complementary retaining formation.
